

Memo for Members ~ October 22, 2020

Important Site Information – Leggett

Fences - The fences should be completed by the end of next week. The gates at unit's 12 – 17 are being changed out for gates that go straight across.

Catch Basins – Rotorooter will be on site Friday October 23rd to clean out the catch basins.

Eavestrough Cleaning – Gutter Done will be on site next week to clean and carry out minor repairs on all eavestroughs and downspouts. They will be starting at the Limeridge site on Wednesday and expect to have everything completed by the end of day Friday. They will not need access to your unit, but they will require access to the backyard in order to reach the upper back eavestrough. We are getting a reduced rate because we are having all units done at once. If they cannot access the back eavestrough or downspout because of a locked gate, or too much stuff in the backyard, you will be charged the full cost for them to come back to complete the work.

Please note that there may be delays in any of the above work due to inclement weather.

Thank you to everyone for returning your budget voting ballots. We are happy to announce that the 2020-21 budget was passed.

Your co-operation is greatly appreciated.
