

Attention Members ~ November 19, 2018

Safety Concern

In the very early morning hours, 2 individuals were seen lurking around the backs of the units at 960 Limeridge. A member scared them off.

With the holiday season coming, the city typically sees a rise in break and enters.

Members are asked to be aware and if you see anything suspicious, you are asked to call the police and not risk your safety confronting them.

Members are reminded to:

- Ensure doors, windows and the garage are locked
- Your front and back porch lights are in good working order and on during the evening.
- Back gates are properly closed
- Make sure your cars are locked and valuable are not visible
- If you have issues with your locks or back lights, please fill out a work order so Maintenance can look after it.

Roof Inspection / Repairs

The contactor will be on-site this week to carryout inspections and minor repairs of the roofs.

Thank you for your co-operation.
